

### Gold/Silver Exchange

Members may exchange their own gold/silver coins with each other, at a fixed rate. The fixed bullion trading-rate guarantees that the provider will always receive more than they normally would get using typical coin-outlets, and guarantees that the receiver will always give less than they normally would using typical coin-outlets. Both members win, and there are no limits to the volume of bullion, or the number of trades.

### Cottage Industries

Members have a simple way of advertising and trading the many things they can offer others, such as Labor, Counseling, and Services. For example quilts, cleaning, repairs, customizations, and seminars. Community cottage industries can produce and offer goods and services, which are advertised on the website, and traded as agreed in the chat rooms.

## What It Does For You

- **Year-Round Group Fund Raiser**
- **Your Own Independent Community Economy**
- **Frontier Style Trading Post: Negotiate and Make Deals**
- **Trade Privately, Using Dollars or Gold-Weight**
- **Advantage To Members Cannot Be Overstated**
- **Independence From The Banks and Inflation**

*Your Group simply leases the website from us. We handle the technical issues, your Group handles the money and Community trading.*

## Ravenous Moose Trading Post

Online Swap & Trade

**Group Fund Raiser**  
**and**  
**Community Economy**

### **Why Do People Like The Idea Of a Local Farmer's Market ?**

**This Trading Post Website Lets People Trade Like This, Privately and In Real-Time**

#### **Year-Round Group Fund Raiser**

Your Group can receive a portion of each trade. Members can swap and trade for the goods and services they use, and at the same time provide charitable contributions to the Group.

#### **Website Is a Real Trading Post**

Members can make counter-offers and negotiate before each trade. In real-time you see what is available. Chat rooms allow you to talk, and you may come to your own agreements.

#### **Independent Economy**

The Group and Community members decide all Fees and Trade percentages. You are in complete control of your own local economy. The dollars and Gold-Weight being traded are backed up by real dollars and gold held safe in your own Group's vault. It is your own economy and trading network, independent from inflation and the banks.

## **Independence and Community Economy**

The Ravenous Moose Trading Post was developed for the purpose of giving Groups their own fund raising income, and giving its Community its own local trading economy, based on the Gold Standard, without the need for employers or banks. With so many unemployed, this website lets them trade their handiwork and services as if that were their employment, and with no need for an employer or a bank. This website gives you a unique economic edge, that was not even possible until this website technology was developed.

## **The Ravenous Moose**

Looking Out For You

### **Private Trading Network**

The Ravenous Moose Trading Post allows people to buy, sell, and trade their personal goods and services between each other, online and in private.

Trading can be in dollars, and also be in Gold-Weight (the gold standard). Using Gold-Weight has many advantages. One is that its value remains the same. The dollar goes up and down with inflation, but Gold is always traded by its weight.

Members can trade for anything, personal and business, items and services. For example, tools, toys, candles, eggs, dairy, large things and small things. Trade for services such as cleaning, baby-sitting, repairs, tutoring, and consultations.

You can set up "Special Projects" requiring escrow. You can set up cooperation with other Groups to enlarge your trading network. You can change the Fees and Trading percentages at any time. You control your own economy, regardless of the national economy and inflation.
